Research Interests

I am currently a postdoctoral fellow at the ETH AI Center with Prof. Dr. Konrad Schindler and Prof. Dr. Siyu Tang. Prior to this I received my PhD at the Computer Vision Group with Prof. Dr. Bastian Leibe at RWTH Aachen University. My research interests lie in the intersection of computer vision and robotics: I develop algorithms that perform 3D scene understanding in real-world environments through interactive and continual learning.

Experience

GOOGLE *Zurich, Switzerland*

Research Intern *June 2019 - Nov 2019*

- I developed a novel and enhanced method for Interactive Object Segmentation, involving user participation in conjunction with a deep learning model to accurately segment desired objects in images. The key idea of this project is that user feedback can be utilized to dynamically update the model's parameters during testing.
- The project resulted in a paper accepted and presented at ECCV 2020.
- **Mentors:** DR. VITTORIO FERRARI, DR. JASPER UIJLINGS, DR. MICHAEL GYGLI

GOOGLE *Venice CA, USA*

Software Engineer Intern *May 2018 - Aug 2018*

- Worked on Large-Scale Landmark Recognition. Implemented Iconoid Shift, a more scalable clustering algorithm in C++ and evaluated it against the existing pipeline and other baselines.
- Used Flume for the data preprocessing and the parallel computation of the clustering component.
- **Mentors:** DR. TOBIAS WEYAND, DR. FANGTING XIA

Zalando AG *Berlin, Germany*

Data Scientist *March 2012 - Apr 2014*

- I focused on applying machine learning algorithms to predict sales and perform inventory clustering.
- I defined a new metric to measure the strength of retail brands using web data. This metric was utilized as a feature for inventory replenishment and played a role in negotiations with the brands.

RWTH Aachen University *Aachen, Germany*

Student Research Assistant *Jan 2011 - Mar 2011*

- Evaluation and extension of classless object detection algorithms.
- **Mentors:** PROF. DR. BASTIAN LEIBE
